

WHO ARE YOU?

Name _____

Grade _____

What do you think of math? (Do you absolutely love it? Are you just good at it, but you don't care too much about it? Do you dream about it at night? Do you hate it, but do it because it's required of you? Are you planning to teach math when you grow up? Are you going to stop taking math as soon as you can? Does it frustrate you when you can't figure out a problem or do you get excited trying to find the answer?)

What is your strongest subject? Why? What's your weakest subject? Why?

When you're not at school or doing homework, how do you spend your time? What do you do after school?

If you were applying for something (a job, an award, etc.), what two things would you want the selection committee to know about you that they might not be able to find out just by looking at your school records? (Please accept this as a chance to brag. I want to know why you are special.)
